Company Profile

Our Commitment to Excellence and Innovation

Vision & Values

Founded with a vision to deliver reliable, cutting-edge engineering solutions, Kenz Al Arabia upholds integrity, innovation, and sustainability as core values.

Advanced Integration

Our Low Voltage Control Panel sector integrates advanced technologies and best practices to ensure seamless production workflows and superior quality.

Client Excellence

We are dedicated to exceeding client expectations by delivering customised, efficient, and durable control panel solutions tailored to diverse industrial and commercial needs.

Sector Overview: Low Voltage Control Panels at Kenz Al Arabia

Design & Engineering

Specialising in design, manufacturing, and testing of low voltage control panels for electrical automation and building management systems.

Precision Manufacturing

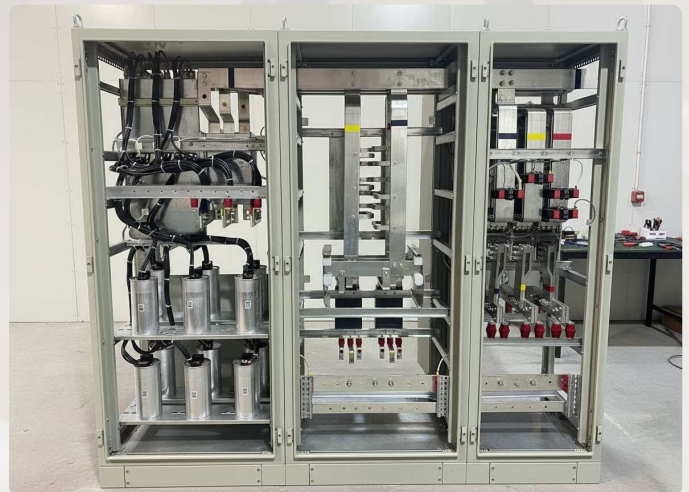

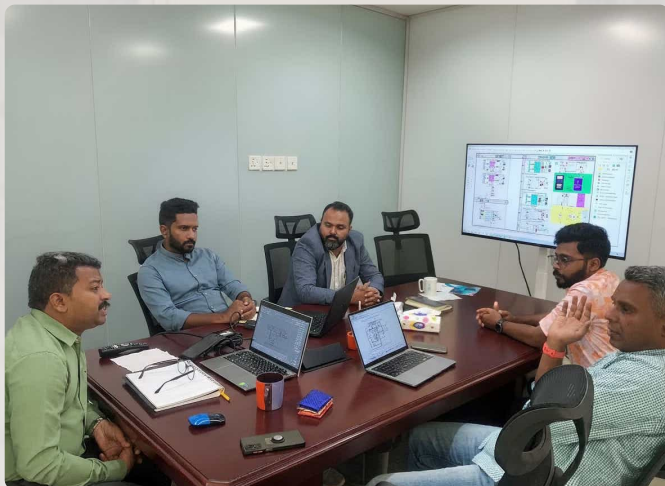

Panels engineered for precise control, **energy efficiency**, and user-friendly operation, supporting applications from telecom shelters to industrial facilities.

Quality Assurance

Our manufacturing process incorporates rigorous quality assurance and compliance with **international electrical standards** to guarantee safety and performance.

Industry Applications: Telecom infrastructure, industrial automation, building management systems, and energy control solutions

Major Projects Summary

SL	Description	Client
1	ZAIN Boarder Guard Project (ZOI) MDB,HVAC,ATS	ZAIN
2	Maaden Battery Room Project MDB,HVAC	Maaden
3	NEOM Lift Station	Neom
4	Seven Yanbu Water Filtration System	Saudi TAAB
5	Park Hayatt Hotel ECJ, APFC Panels	Hayatt Hotel
6	Umluj Sewage Treatment Plant	Hassan Allam
7	HEGRA Hotel STP	FMC
8	Al Narjis Villa-Smart home System	Riyadh
9	University Extension - KNX system panel	Naif Arab University Riyadh
10	Social Rehabilitation Centre Sand Filter MCC Panel	NESMA
11	Jawharat Al Riyadh GWTP	Lynx
12	Al Awal Water Treatment Power Panels	Al Awal
13	Sports boulevard MCC CONTROL PANEL	Freysnet
14	Qiddiya CCTV surveillance Control Panel	Qiddiya
15	Water meter Communication panel	Arail
16	Cold Room Control Panel	Wafra Food
17	Lazure Beach Resort cable pulling & Termination	Tabuk inv. Neom

Highlight Project 1: Telecom Shelter Control Panels

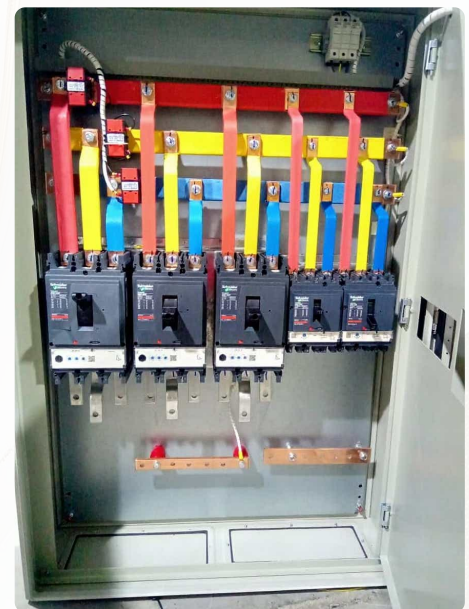

Project Location

Delivered turnkey low voltage control panels for a major telecom infrastructure project in [Riyadh, Saudi Arabia](#).

Advanced Integration

Panels integrated with automation systems for [remote monitoring and energy management](#).

This flagship project demonstrates our capability to deliver complex telecom infrastructure solutions with precision and reliability, setting new standards for network uptime and operational efficiency.

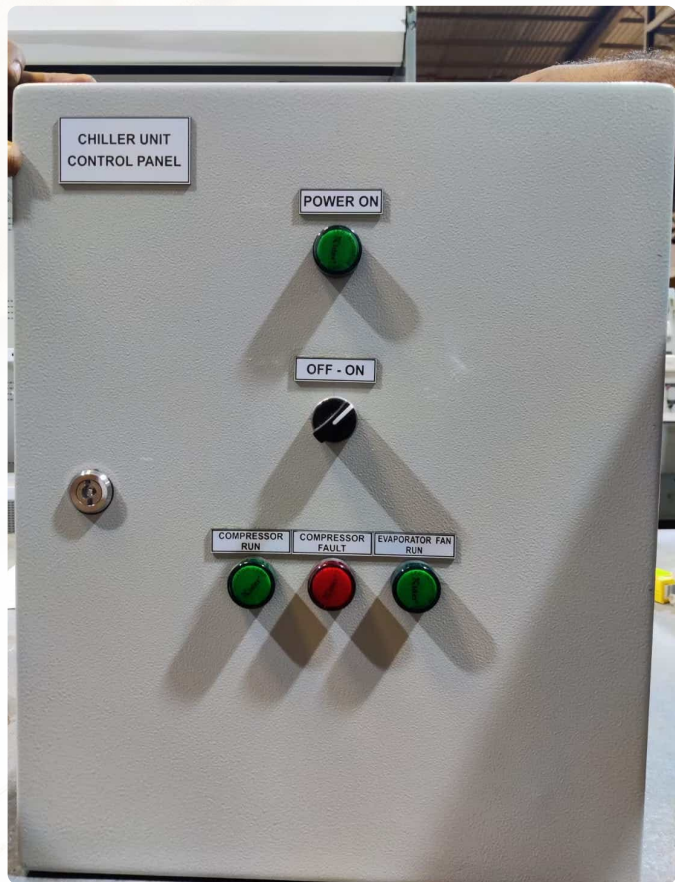

Highlight Project 2: Industrial Automation Panels for Cold Storage WAFRA

Custom Design

Designed and manufactured customised control panels for a large cold storage facility under [Kenz Cold division](#).

Integrated Controls

Panels included [temperature regulation, lighting control, and safety interlocks](#) for comprehensive facility management.

Highlight Project 3: Commercial Building Electrical Control

Comprehensive Building Systems

Supplied low voltage control panels for a multi-storey commercial building project, coordinating HVAC, lighting, and security systems with user-friendly interfaces.

Enhanced Energy Efficiency

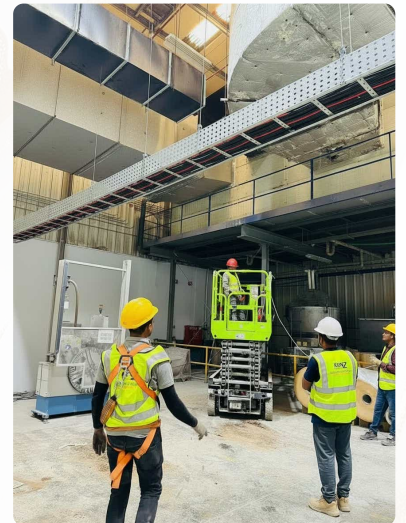

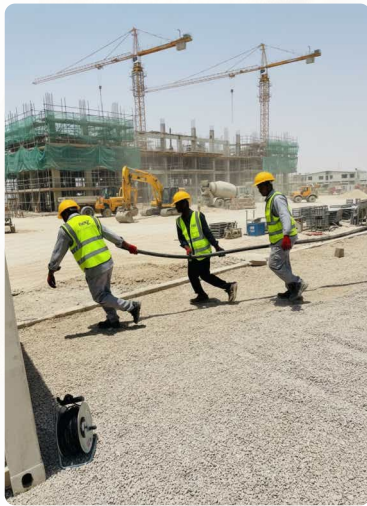

Improved building energy performance through intelligent control systems.

Simplified Maintenance

Streamlined maintenance procedures with intuitive panel design and diagnostic capabilities.

This project showcases our ability to integrate multiple building systems into cohesive, efficient control solutions that enhance both operational performance and user experience.

Highlight Project 4: Cable Laying & termination

Quality Assurance and Compliance

Rigorous Testing

All panels undergo stringent testing including insulation resistance, functional tests, and load simulations.

International Standards

Compliance with IEC 61439 standards for low voltage switchgear and control gear assemblies.

Continuous Improvement

Continuous improvement culture supported by client feedback and industry best practices.

✔ **Quality Commitment:** Every panel meets or exceeds international safety and performance standards through comprehensive testing protocols

QuayAudit
REGISTRATION CERTIFICATE

This certificate confirms that the management systems of
Kenz Al Arabia International Contracting Company
ARK Building No. 1212, Office No. C9, New Al Kharij Road, Al Manakh 14314-3460, Riyadh,
Kingdom of Saudi Arabia

have been audited and approved by
Quay Audit UK Ltd to the following management standard:
ISO 9001:2015

The approved management systems apply to the following scope:
Fabrication and Installation of Low Voltage Panels, Supply & Installation of Cold Rooms and its Condensing Units,
Modular & FREFAB Insulated Structures, Supply and Installation of Active and Passive Shelters, HVAC, DC, UPS,
Commercial Kitchen Equipment Supply and Maintenance, Genset Maintenance, Solar System, MEPF & Low Current System.

This certificate is restricted to those scopes of business activity described
in the internationally recognised NACE Codes listed below:
2511, 2640, 4322, 4669

Original Approval	18 March 2024	
Current Certificate	18 March 2024	
Certificate Expiry	18 March 2027	
Registration Number	4159431	

On behalf of Quay Audit UK Limited *Grove*

This is an accredited certificate authorised for issue by Accreditation Service for Certifying Bodies Ltd who have assessed Quay Audit UK Limited against defined criteria and in compliance with the latest version of ISO 17021 Conformity Assessment - Requirements for bodies providing audit and certification of management systems. This certificate is only valid when confirmed by the appropriate technical international bodies of Quality Assessed Organisations: www.ascb.com

Grove House, 8 St. Julian's Friars, Shrewsbury, Shropshire, SY1 1XL | (44)1743 351677 | post@quayaudit.co.uk | www.quayaudit.co.uk

Our Team & Facilities

Expert Team

Our dedicated engineering and production teams are committed to excellence, ensuring superior quality in every project.

State-of-the-Art Facilities

Equipped with modern fabrication workshops and testing laboratories at our Riyadh headquarters.

Riyadh Headquarters

Our comprehensive facilities are strategically located in Riyadh, serving as the hub for all operations.

Advanced Equipment

Utilizing modern fabrication workshops and precision testing laboratories for high-quality manufacturing.

Continuous Learning

Commitment to staff training and adoption of emerging technologies to maintain a competitive edge and foster innovation.

Who We Are

Kenz Al Arabia International Contracting Company was developed and inspired by the transformative Saudi Vision 2030 Programme, contributing Kingdom's ambitious infrastructure goals. Established in Riyadh, we have positioned ourselves as a premier provider of communications and infrastructure solutions.

Vision, Mission, and Values

Our Vision

To be the leading provider of integrated communication infrastructure solutions that supports operational efficiency and contribute to Saudi Vision 2030

Our Mission

To deliver comprehensive, and cost-effective turnkey solutions through engineering excellence, continuous improvement, and customer focus support.

Our Values

- Excellence in execution
- Innovation and continuous improvement
- Integrity and transparency
- Customer-centric approach
- Commitment to Saudi Vision 2030
- Sustainability and responsibility

Why us?

Because Kenz Al Arabia combine technical expertise with precision, reliability, and a commitment to delivering results that exceed expectations. We translate your needs into clear, effective solutions built on quality, transparency, and timely execution. Choosing us means partnering with a team you can trust — dedicated to your success and driven to deliver excellence every time.

Telecommunications Shelter Solutions

Each shelter and building manufactured by Kenz Al Arabia International Contracting meets or exceeds all applicable codes and requirements. Our telecom shelters represent the pinnacle of engineering excellence, designed to protect critical telecommunications equipment in the demanding Saudi Arabian climate whilst ensuring optimal operational performance.

Design Excellence

- Custom engineering for specific requirements
- Climate-optimised thermal management
- Structural integrity in extreme conditions
- Modular and scalable designs
- Compliance with international standards

Comprehensive Services

- Complete turnkey installations
- Building services and repairs
- On-site technical support
- Preventive maintenance programmes
- Emergency response services

Our shelters incorporate advanced materials and construction techniques that ensure longevity, reliability, and ease of maintenance. From initial consultation through final commissioning and ongoing support, Kenz Al Arabia remains your trusted partner in telecommunications infrastructure development.

Active and Passive Shelter Systems

Active Air Conditioning Shelters

Active air conditioning shelters represent the most efficient solution for equipment housing in locations with stable and reliable electrical power. These systems maintain precise the temperature and humidity levels, ensuring maximum protection for sensitive telecom equipment's.

Passive Ventilation Systems

For remote locations where continuous electrical supply can not be guaranteed. These systems use natural ventilation, thermal management and high-performance insulation to maintain internal temperature.

Kenz Al Arabia International Contracting Co.- Telecommunication Infrastructure Solution

Communication and Telecom Shelter Applications

With fully integrated design, engineering and commissioning capabilities, Kenz Al Arabia delivers turnkey shelter solutions that guarantee seamless execution and rapid deployment without the operational challenges typically faced in multi-vendor environments.

Telecommunication Shelters

Purpose-built structures housing core telecommunications equipment, switching systems, and network infrastructure with comprehensive environmental control and security features.

Railway Shelters

Robust shelters for railway communication and signalling systems, engineered to withstand vibration, electromagnetic interference, and harsh environmental conditions along rail corridors.

Photovoltaic Solar Energy Shelters

Specialised structures housing inverters, control systems, and monitoring equipment for solar energy installations, designed for optimal thermal management and equipment protection.

Radio Base Station Shelters

Specialised shelters designed for cellular network base stations, incorporating RF-transparent materials, cable management systems, and optimal equipment layouts for mobile network infrastructure.

Highway Services Shelters

Shelters supporting intelligent transportation systems, toll collection equipment, traffic management systems, and emergency communication infrastructure along major highways.

Medium Voltage and Transformer Shelters

Heavy-duty shelters and containers designed for electrical distribution equipment, transformers, and switchgear, incorporating fire suppression systems and enhanced safety features.

Turnkey Shelter Solutions

Kenz Al Arabia delivers complete turnkey shelter solutions that encompass every aspect of shelter infrastructure from initial design through final commissioning. Our comprehensive approach ensures seamless project execution, eliminating coordination challenges and providing clients with fully operational facilities ready for immediate deployment.

Our end-to-end approach covers every stage from initial design and engineering to final commissioning, ensuring seamless project execution, optimized performance, and shelters ready for immediate deployment across all sectors.

01

Active Cooling Systems

High-efficiency HVAC units with redundancy, intelligent temperature control, humidity management, and remote monitoring capabilities

02

Electrical Distribution

Power distribution boards, rectifiers, UPS systems, surge protection, and backup power integration

03

Safety Systems

grounding systems, FM200/NOVEC/CO₂ fire suppression systems, fire extinguishers, and alarm systems

04

Cable Management

Cable ladders, trays, cable runners, and professional cable dressing for optimal organisation and maintenance access

05

Security Infrastructure

Access control systems, CCTV surveillance, intrusion detection, and integrated security monitoring platforms

06

Lighting Systems

Energy-efficient LED lighting with emergency backup, task lighting for maintenance areas, and external security lighting

Additional Shelter Solutions

Generator Set Shelters

Our generator are engineered to provide reliable protection and optimal operating conditions for both standby and prime power generation system. Each shelter is designed with a focus on durability, efficiency, and long-term operational stability

These shelters are ideal for telecommunication sites , energy infrastructure, industrial facilities transportation hubs , and remote operations requiring continouse and dependable power

Battery Shelters

Our battery shelters are purpose-built to support advanced battery energy storage systems (BESS), ensuring maximum safety , stability, and operational efficiency.

These shelters are ideal for telecome power backup systems, photovoltaic installation, meduim voltage substations, mission-critical facilities , and renewable energy storage projects

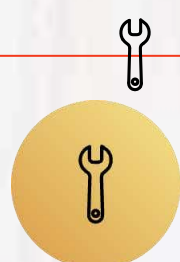

Power Generator Solutions

Reliable Power When You Need It Most

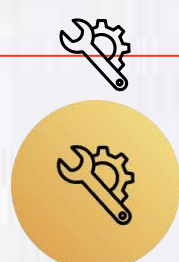

At Kenz Al Arabia International, we deliver fully engineered generator solutions tailored to meet the critical power demands of telecommunications, industrial operations, and mission-critical facilities. Our systems are designed for high reliability, ensuring uninterrupted operation and long-term performance in the most demanding environments.

Our commitment to quality ensures that each generator package is engineered to match the specific capacity and technical requirements of our clients—ranging from small standby units to large prime-power installations capable of supporting entire facilities with stable, efficient, and continuous power.

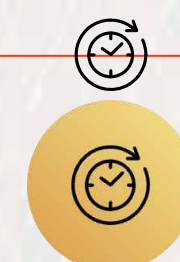

Expert Installation Services

Our certified installation teams ensure precise generator placement, optimized airflow, compliant fuel-system integration, and electrical connections designed to meet all relevant safety and performance standards.

Preventive Maintenance

We provide comprehensive maintenance programs, including regular inspections, oil and filter replacement, load-bank testing, performance optimization, and emergency readiness to ensure your generator delivers maximum reliability whenever required.

24/7 Technical Support

Our dedicated in-house service team offers round-the-clock assistance, including emergency response, troubleshooting, repairs, and performance monitoring—ensuring uptime, efficiency, and complete customer satisfaction throughout the generator's lifecycle.

Containerised Solutions

At Kenz Al Arabia International, we deliver advanced containerized solutions engineered to meet the diverse and evolving needs of our clients across multiple industries. Using ISO-standard 20-foot and 40-foot containers, we transform these adaptable structures into fully customized, purpose-built spaces designed to support a wide range of operational requirements.

With our in-kingdom fabrication capabilities, we are able to design and manufacture container solutions that meet the highest standards of quality, durability, and functionality. This local manufacturing advantage ensures faster delivery, cost-effective production, and seamless integration of regional requirements and compliance standards across every project we execute.

Telecommunications Rooms

Fully equipped containerized units designed for telecom infrastructure. They include:

- Rack-mounted equipment.
- Cable management.
- Climate control.
- Power distribution.
- Reliable network connectivity.

These rooms are made to support telecom networks in any location.

Office Rooms

Comfortable and functional office spaces built inside containers. They are suitable for remote or temporary sites. Features include:

- Proper insulation.
- Climate control.
- Electrical systems.
- Network connectivity.
- Ergonomic layouts.

Data Centre Rooms

Specialized containers designed for IT infrastructure. They ensure a secure, climate-controlled environment with:

- Redundant cooling.
- UPS power protection.
- Fire suppression.
- Environmental monitoring.

Photos shows examples of fabricated containers and on-site deployment.

Additional Containerised Applications

Store Rooms

Our durable containerized storage rooms are engineered to protect valuable goods and equipment through robust, weather-resistant construction, secure access control, proper ventilation, and well-organized storage layouts. These units are designed for easy access, efficient organization, and long-term asset protection, even in demanding environments.

- Weather-resistant construction.
- Secure locking systems.
- Customizable shelving and storage layouts.
- Optional climate-control systems.

Cold Rooms

Our refrigerated container solutions maintain precise temperature conditions for sensitive products, making them ideal for food storage, pharmaceuticals, and other temperature-critical materials. Each cold room is equipped with industrial-grade refrigeration systems, accurate temperature control technology, alarm systems, and reliable backup power integration.

- Temperature range from -25°C to $+10^{\circ}\text{C}$.
- High-efficiency insulation panels.
- Digital temperature monitoring.
- Emergency backup systems.

Our containerized solutions provide exceptional flexibility and convenience, enabling efficient operations with ready-to-use spaces tailored to exact client requirements. Whether for long-term installations or temporary on-site deployments, Kenz Al Arabia delivers robust, high-quality, customized solutions that empower clients to operate reliably in any environment.

Low Voltage Power and Control Manufacturing

At Kenz Al Arabia International Contracting Company, we take pride in being a leading manufacturer of low voltage power and control panels. Our modern production facility in Riyadh (Exit 18) combines advanced technology with expert craftsmanship to deliver high-quality electrical solutions tailored to the diverse needs of clients across various industries.

Advanced Manufacturing Technology

Our facility is equipped with state-of-the-art machinery designed to enhance production efficiency and ensure exceptional accuracy in every panel we manufacture. Through computer-aided design systems, automated cutting and bending equipment, and precision assembly tools, we consistently deliver products that meet the highest engineering and performance standards.

Rigorous Quality Control

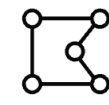

We apply stringent quality control measures throughout every stage of the manufacturing process—from initial design and component selection to assembly, testing, and final inspection. Each product undergoes comprehensive testing to ensure it meets industry standards, regulatory requirements, and specific client expectations.

Sustainability Practices

We are committed to sustainable and environmentally responsible manufacturing. Our processes utilize eco-friendly materials, adopt energy-efficient methods, and minimize waste through optimized production practices—all while maintaining uncompromised quality and performance.

Power and Control Panel Products

Low Voltage Power Panels

Our low voltage power panels are designed to ensure reliable power distribution across various facilities. Each panel is fully customizable to meet a wide range of application needs. Key features include circuit protection, metering systems, remote monitoring capabilities, modular configurations, and robust designs that ensure safety, efficiency, and ease of maintenance.

Control Panels

Engineered for exceptional performance in automation and control environments, our panels incorporate user-friendly HMI interfaces, durable construction, seamless integration with PLC and SCADA systems, and comprehensive technical documentation. These solutions are developed to support long-term operational reliability and efficiency.

Custom Solutions

We collaborate closely with clients to design and develop bespoke control panel solutions tailored to specific operational requirements. Our engineering team conducts detailed assessments, proposes optimal designs, and manufactures custom-built panels that maximize functionality, durability, and value.

Industry Applications

Our power and control panels support a wide range of industries, each with unique operational requirements. Our extensive experience covers manufacturing and industrial automation facilities, renewable energy installations—including solar and wind power—commercial buildings, infrastructure projects, utilities, water treatment plants, and oil & gas operations. This broad expertise enables us to understand sector-specific challenges and deliver precisely engineered solutions for every application.

Innovation and Customer Focus

Commitment to Innovation

At Kenz Al Arabia, we are driven by a culture of continuous improvement and innovation. Our dedicated research and development team actively explores emerging technologies and advanced methodologies to enhance our product portfolio and maintain our competitive edge in a rapidly evolving electrical systems market.

We continuously invest in staff development, advanced equipment, and process optimization to ensure that our manufacturing capabilities remain aligned with the highest industry standards. This strong commitment to innovation empowers us to tackle increasingly complex projects and deliver solutions that consistently exceed client expectations.

Customer-Centric Approach

We prioritize customer satisfaction by providing personalized, reliable support throughout the entire project lifecycle. From initial consultation and design to manufacturing, installation, and ongoing maintenance, our expert team remains fully committed and readily available to assist clients at every stage.

Partnership Excellence

As a trusted leader in low voltage power and control panel manufacturing, Kenz Al Arabia International Company is dedicated to delivering uncompromising excellence and long-term reliability. We cultivate strong, enduring partnerships with our clients by supporting their operational growth and success through innovative electrical solutions tailored to future challenges.

Automation and Control System Expertise

Kenz Al Arabia is a recognized leader in the design and construction of advanced automation and control systems, supporting both electrical panel manufacturing and large-scale industrial projects. Our expert engineering team—including skilled programmers, designers, panel builders, and dedicated technical support professionals—works collaboratively to deliver customized automation solutions tailored to each client’s unique operational requirements.

Advanced Technologies

We utilize cutting-edge programming languages and state-of-the-art industrial technologies to deliver reliable, efficient, and high-performance automation systems:

- **SCADA Systems** – Supervisory control and data acquisition for facility-wide monitoring.
- **PLC Programming** – Programmable logic controllers for industrial automation.
- **HMI Development** – Human-machine interfaces for intuitive operator control.
- **Motion Control** – Precision control systems for automated machinery and high-accuracy operation.

Complete Solutions

Our automation expertise spans a wide range of applications—from simple machine control to fully integrated production line automation. We ensure:

Seamless integration with existing infrastructures.

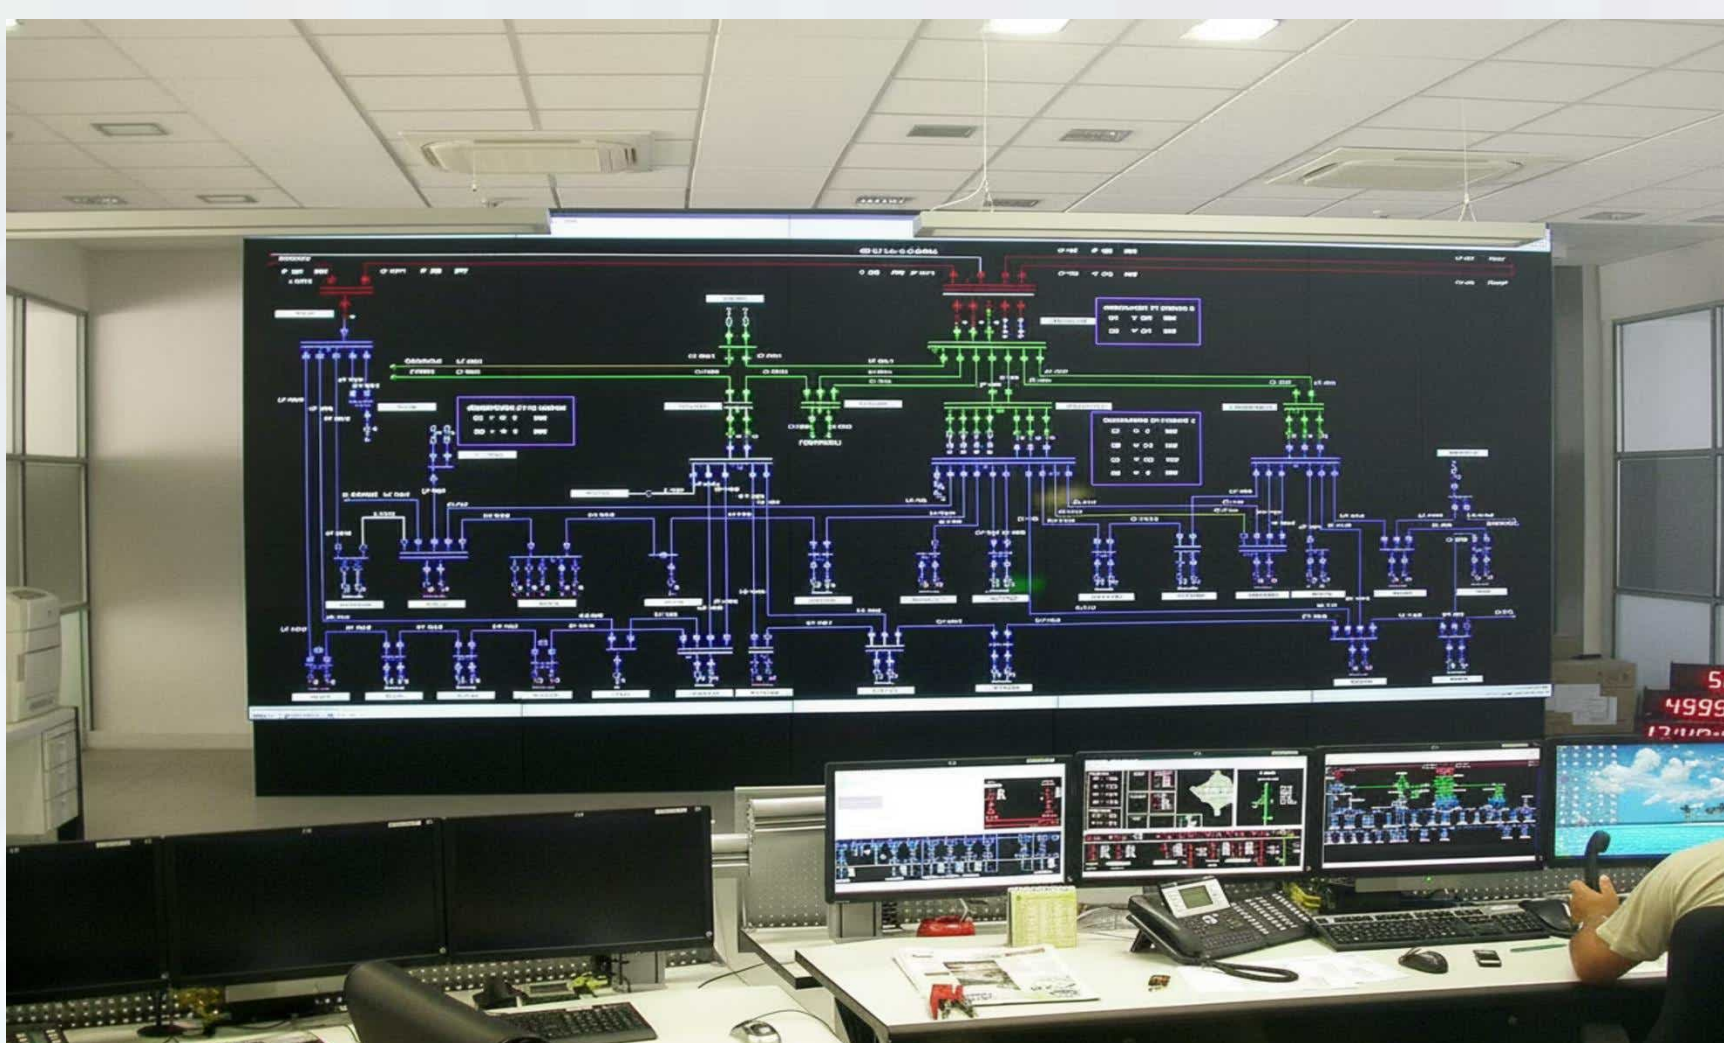

Scalable system architectures for future expansion.

Comprehensive technical documentation.

Thorough operator training.

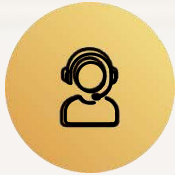

Smooth, efficient operations with minimal downtime

Our approach guarantees that every solution is engineered for reliability, operational continuity, and long-term performance.

Comprehensive After-Sales Support

At Kenz Al Arabia International Contracting Company, our commitment to clients extends well beyond the initial delivery of products and solutions. We provide a fully integrated and reliable after-sales support system designed to serve all sectors in which we operate. Our dedicated service team ensures that every client continues to receive exceptional support, optimal system performance, and long-term value, fostering partnerships built on trust, consistency, and reliability.

Technical Assistance

Our highly skilled technicians are available to deliver expert guidance, remote diagnostics, troubleshooting, and on-site support whenever needed. We ensure that any operational issues are resolved promptly, guaranteeing uninterrupted performance and maximum efficiency of all systems and equipment.

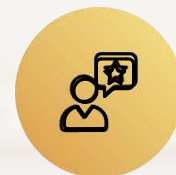

Maintenance Services

We provide scheduled preventive maintenance programs as well as emergency repair services to enhance equipment lifespan, reliability, and operational stability. Our proactive maintenance approach significantly reduces downtime and boosts overall system efficiency.

Training and Support

We offer comprehensive training programs for our clients' teams, ensuring they are fully qualified to operate and maintain all systems with confidence and independence. This structured knowledge transfer enhances operational capability and maximizes return on investment.

Continuous Improvement

We actively engage with our clients to gather feedback that drives continuous enhancement of our services and products. This customer-focused approach ensures that our solutions evolve in alignment with clients' needs and consistently exceed expectations.

With our strong and well-structured after-sales support system, Kenz Al Arabia International Contracting Company is committed to building long-term partnerships with our clients by ensuring peace of mind and continuous success across all sectors we serve. Our support philosophy is built on proactive engagement, rapid response, and consistent value delivery throughout the entire lifecycle of our products and systems.

Quality Certifications and Compliance

Kenz Al Arabia International Contracting Company upholds the highest standards of quality, occupational health, and safety across all operations. Our internationally accredited certifications reflect our unwavering commitment to excellence. Through strict compliance with global standards, we ensure that every project consistently meets—and often exceeds—client expectations while safeguarding employee wellbeing and protecting the environment.

Quality Management Excellence

Our ISO 9001:2015 certification confirms the strength of our comprehensive quality management system, which governs every stage of our operations—from design and manufacturing to project execution and after-sales support.

- Consistent product and service quality
- Continuous process improvement
- Enhanced customer satisfaction
- Effective risk management
- Regulatory compliance

Health and Safety Commitment

Our ISO 45001:2018 certification highlights our proactive approach to occupational health and safety. This framework underpins our commitment to creating safe, compliant, and risk-controlled working environments for all personnel. It ensures:

- Safe working environments for all personnel
- Hazard identification and risk mitigation
- Comprehensive safety training programmes
- Incident prevention and investigation
- Continuous safety performance improvement

Completed Projects Portfolio

Kenz Al Arabia International Contracting Company has successfully executed a wide range of high-quality projects across the Kingdom of Saudi Arabia, showcasing our technical expertise, advanced engineering capabilities, and strong project management performance. Each completed project reflects our unwavering commitment to excellence, reliability, and precision in delivery.

Our portfolio highlights the diverse applications of our custom-built shelter systems, electrical solutions, and integrated infrastructure installations—each engineered to meet the highest industry standards and tailored to client-specific requirements.

Completed Projects Portfolio

Project Excellence Highlights

On-Time Delivery

We consistently achieve project deadlines through strategic planning, efficient resource allocation, and proactive issue resolution—ensuring our clients’ operations are launched on schedule without compromise.

Quality Assurance

Every project is subjected to strict quality control procedures, guaranteeing that all fabricated and installed systems meet or exceed specifications and international industry standards.

Client Satisfaction

Our dedication to transparent communication, responsiveness, and delivering beyond expectations has earned us high client satisfaction rates and a strong record of ongoing and repeat partnerships.

Major Projects Summary

SL	Description	Client
1	ZAIN ZOI Project Shelter MDB,HVAC,ATS	ZAIN Phase -3
2	Maaden Battery Room Shelter Project MDB,HVAC	Maaden
3	NEOM Lift Station	Neom
4	DQ Quarter Al Arabia News Antenna station	Al Arabia
5	ZAIN ZOI Project Shelter MDB,HVAC,ATS	ZAIN Phase-2
6	STC Cow Shelter Supply	G- Enviro
7	Nudum Container Shelter for Airport Tabuk	GACA
8	Al Narjis Villa-Smart home System	Riyadh
9	University Extension - KNX system panel	Naif Arab University Riyadh
10	Social Rehabilitation Centre Sand Filter MCC Panel	NESMA
11	Jawharat Al Riyadh GWTP	Lynx
12	Al Awal Water Treatment Power Panels	Al Awal
13	Sports boulevard MCC CONTROL PANEL	Freysnet
14	Qiddiya CCTV surveillance Control Panel	Qiddiya
15	Water meter Communication panel	Arail
16	Cold Room Control Panel	Wafra Food
17	Lazure Beach Resort cable pulling & Termination	Tabuk inv. Neom

INTEGRITY. DIVERSITY. INNOVATION. RELIABILITY.

Building Ingenuity in Saudi Arabia

An ISO 9001:2015 & 45001:2018 Certified Company

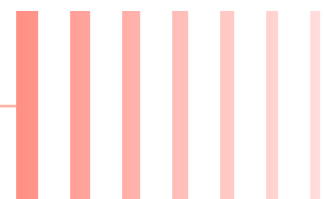

About Us

Kenz Contracting is driven by a team with over 60 years of combined experience in the Saudi Arabian industrial sector.

We specialize in delivering innovative cold storage solutions, robust electrical and telecom installations, telecom shelters, comprehensive MEP, prefab & modular solutions, and exceptional maintenance services.

Our deep market knowledge, technical expertise, and commitment to quality ensure the success of your industrial projects.

Expertise-Driven, with Detailed Services

Harness the power of 60+ years of Saudi-focused engineering expertise with the team of Kenz Contracting . We specialize in innovative cold storage solutions, robust electrical and telecom installations, telecom shelters, comprehensive MEP, prefab & modular solutions, and exceptional maintenance services. Our in-depth understanding of the Saudi industrial landscape ensures exceptional results for your projects.

Client-Focused, Service-Inclusive

Partner with Kenz Contracting and leverage the founding team's 60+ years of Saudi industrial experience for your project's success. We specialize in innovative cold storage solutions, robust electrical and telecom installations, telecom shelters, comprehensive MEP, prefab & modular solutions, and exceptional maintenance services. Our team's deep market knowledge, technical expertise, and commitment to quality drive successful project outcomes.

Vision

“Kenz Contracting aims to transform the built environment with reliable, sustainable, and cutting-edge engineering solutions, leaving a legacy of excellence.”

Mission

“To be the trusted partner for engineering projects, delivering affordable, innovative solutions with unwavering integrity and transparency.”

Values

“We're very uncompromising about upholding the highest standards of integrity and ethical practices. We are committed to reliable, innovative solutions that foster sustainability and exceed client expectations through a relentless pursuit of excellence.”

Kenz Electric

Kenz Electric is a trusted partner for industrial and commercial clients seeking comprehensive electrical solutions. We deliver custom-built electrical systems designed to enhance efficiency, safety, and reliability. Our team of experts works closely with you to understand your unique needs and deliver solutions that meet your budget and project goals.

Power Up Your Operations
with Kenz Electric

01

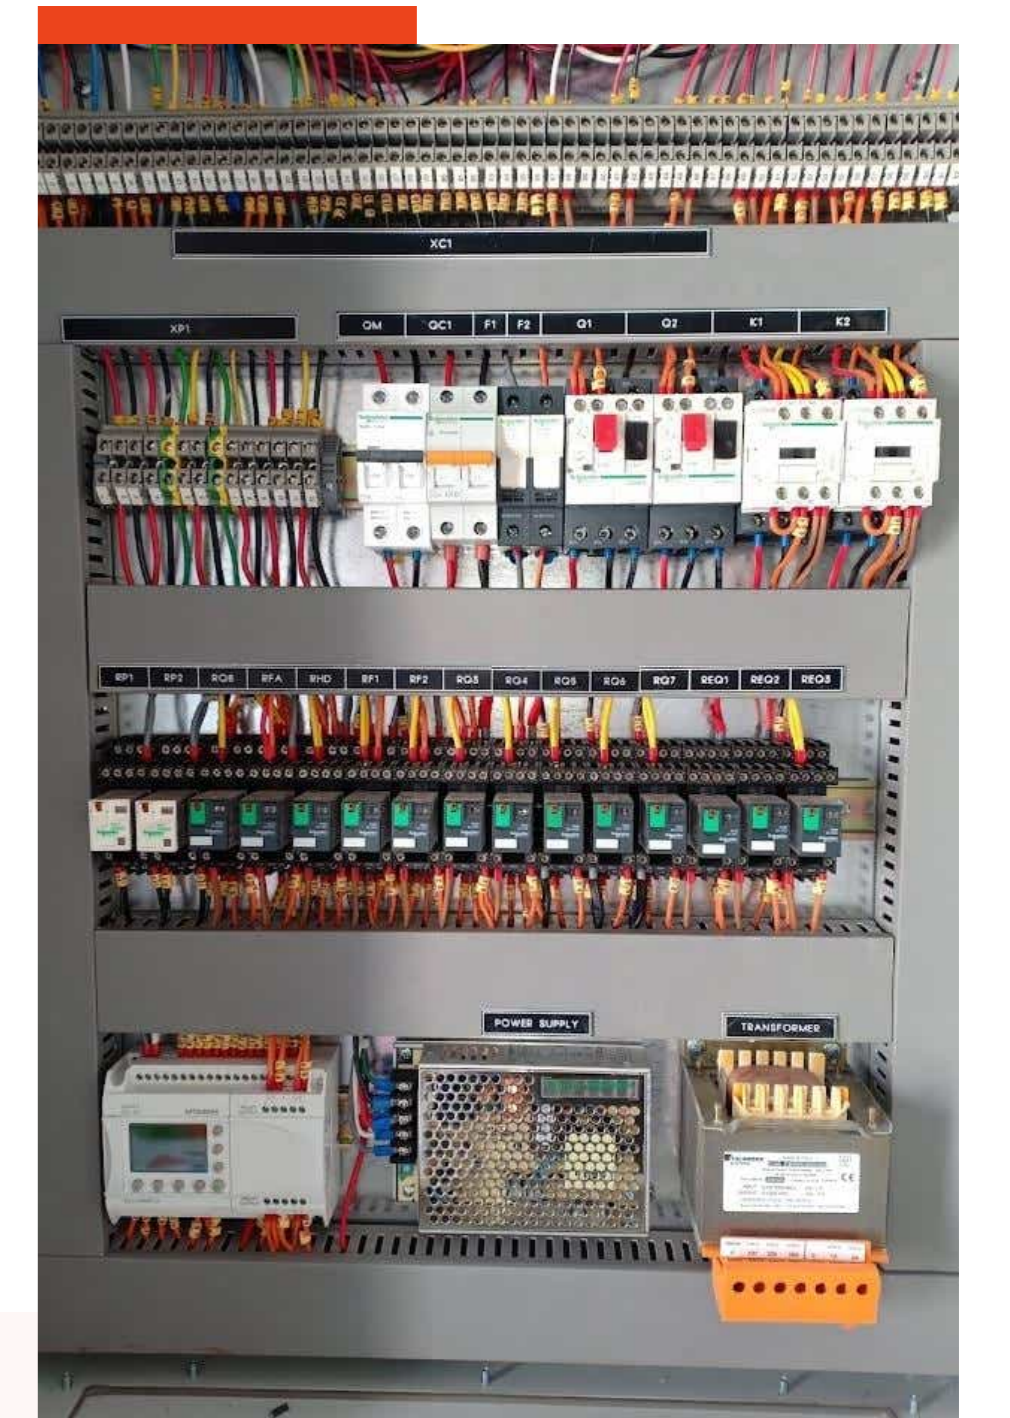

Your Complete Industrial & Commercial Electrical Partner

Our expertise lies in custom low-voltage power and control panels, switchgear, automation, and instrumentation. We take pride in crafting safe and reliable systems tailored to your specific requirements, ensuring optimal performance for your facility.

Kenz Electric is your one-stop shop for all your industrial and commercial electrical needs. We specialize in designing, building, and implementing comprehensive electrical solutions to keep your operations running smoothly and efficiently.

At Kenz Electric, we go beyond simply providing electrical services. We offer a collaborative approach, working alongside you to design and implement electrical solutions that empower your operations.

Our Core Competencies include:

Custom Low-Voltage Power & Control Panels

We design and build control centers, lighting control panels, and distribution panels tailored to your specific needs, ensuring optimal power management and safety.

Switchgear

Our team has the expertise to select and install the right switchgear for your application, including automatic transfer switches, breakers, and disconnects, guaranteeing reliable power distribution and protection.

Automation & Instrumentation

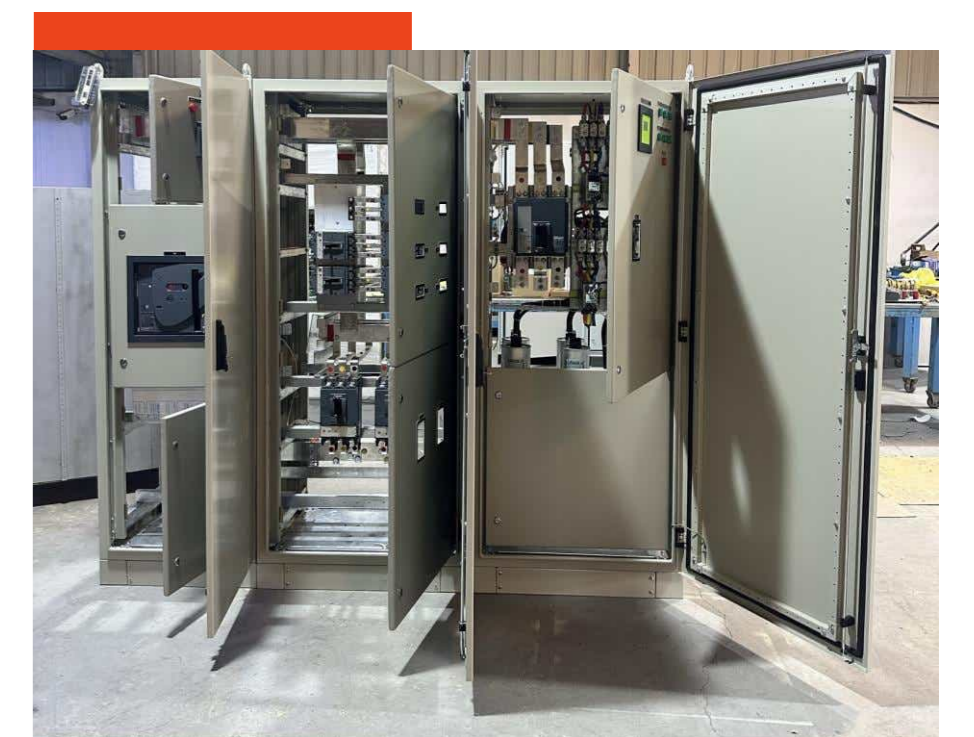

We leverage automation technologies like PLC programming and SCADA systems to optimize your processes and integrate seamlessly with existing equipment. We also have extensive experience with various instrumentation solutions, such as sensor integration and data acquisition systems, to provide valuable insights into your operations.

Tailored Solutions

We understand that every project is unique. Through consultations and site surveys, we gain a comprehensive understanding of your requirements and budget constraints. This allows us to design and build electrical systems that perfectly match your specific needs.

Safe & Efficient Systems

Safety is at the forefront of everything we do. Our team adheres to the latest electrical codes and prioritizes arc flash mitigation to ensure the well-being of your personnel. Additionally, we design systems that promote energy efficiency and improved power quality, reducing your operating costs.

Expertise You Can Trust.

Partner with Kenz Electric as your trusted advisor, our team of skilled professionals are dedicated to delivering exceptional electrical solutions that empower your success.

Kenz Cold

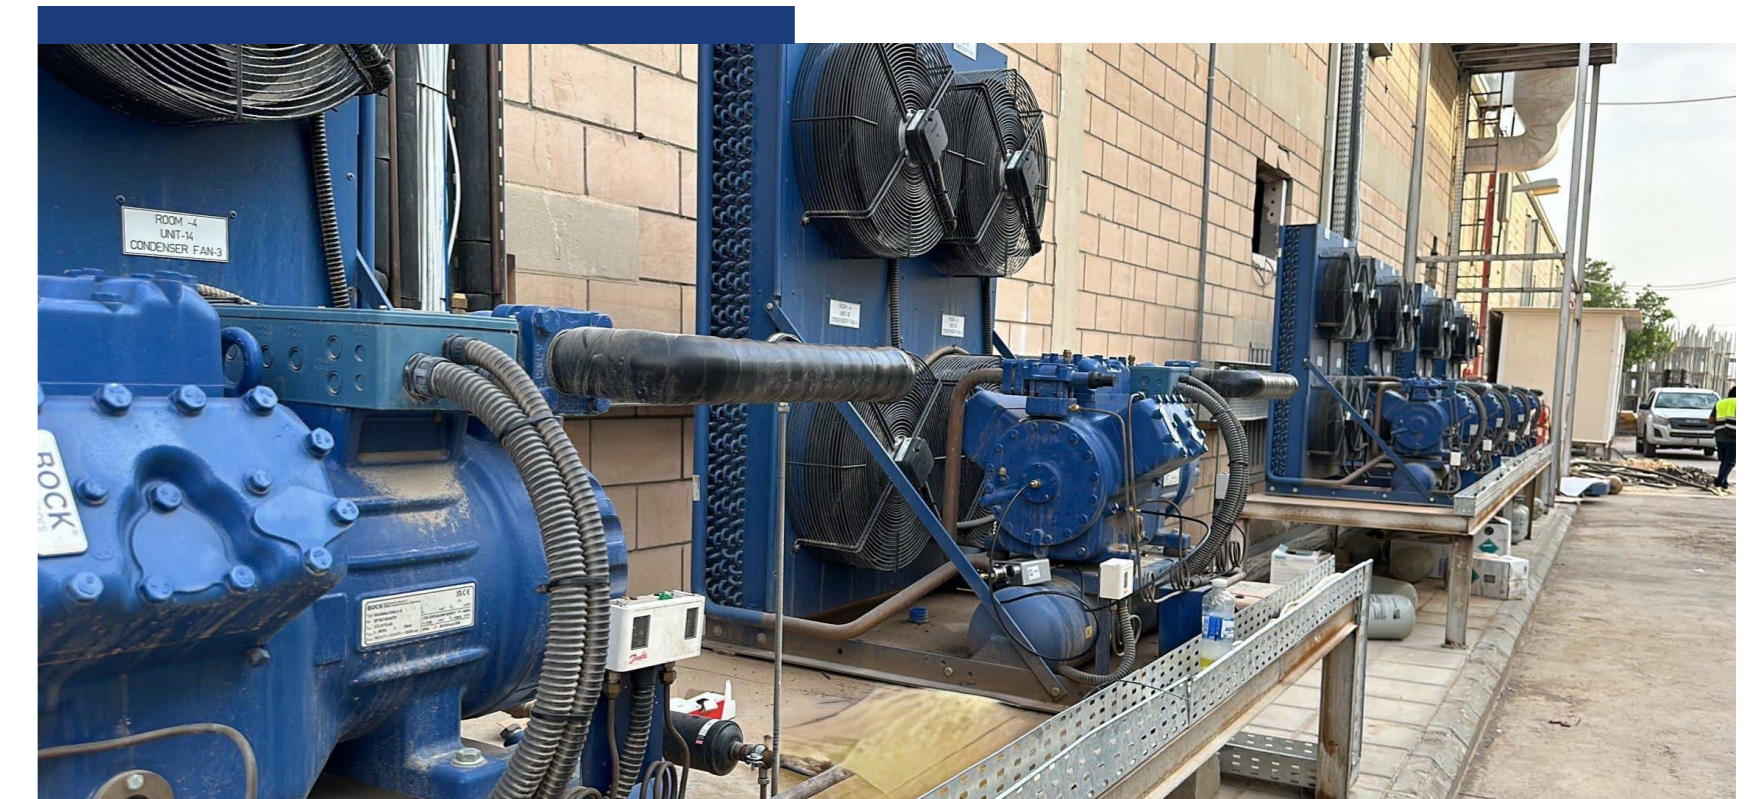

Kenz Cold, a division of Kenz Arabia, provides comprehensive solutions for all your commercial and industrial refrigeration needs. We specialize in design, installation, maintenance, and service, keeping your products fresh and your operations efficient.

“ Ensuring Optimal Temperature Control for Your Success

02

Experience Unmatched Cold Chain Expertise!

Tailored Solutions

We take the time to understand your specific requirements and develop a customized plan to meet your budget and operational goals.

Preventative Maintenance

Our proactive maintenance programs help identify and address potential issues before they disrupt your operations.

24/7 Emergency Service

We offer round-the-clock emergency support to ensure your cold chain remains uninterrupted, minimizing downtime and product spoilage.

Unwavering Commitment

At Kenz Cold, we prioritize your success. We are dedicated to providing exceptional service, expert advice, and reliable solutions to keep your world cool.

Your Trusted Partner in Cold Chain Excellence.

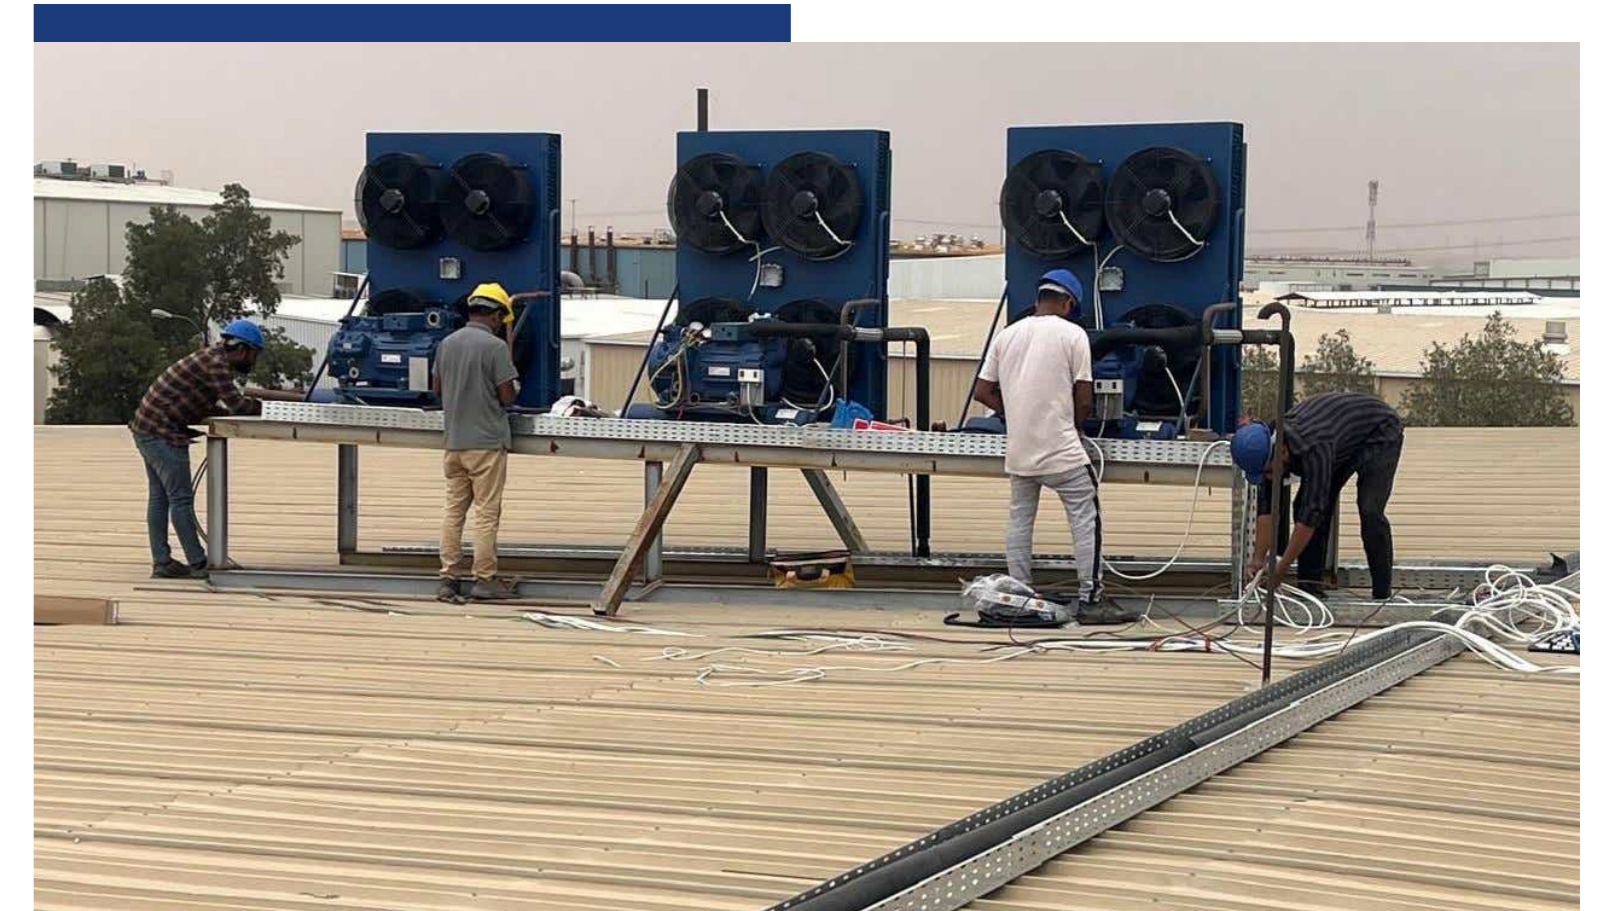

Unparalleled Expertise for Your Cold Chain

From walk-in cold rooms and freezers to condensing units and refrigeration panels, Kenz Cold provides a comprehensive product portfolio to ensure optimal temperature control throughout your supply chain.

We leverage industry-leading technologies and top-of-the-line equipment from trusted brands to deliver customized solutions for your unique needs.

Our team of highly trained and certified technicians possesses extensive experience in all aspects of cold chain management.

Guaranteed Performance and Peace of Mind.

Kenz Shelters

We provide reliable turnkey solutions for communication infrastructure. We offer a range of shelters, catering to telecom, defense, and other sectors. Our expertise extends beyond the structures themselves, incorporating electrical automation for temperature control, remote monitoring and notification systems, and automated fire safety features, etc. Our team is experienced in delivering such solutions for various clients with meticulous workmanship for over a decade.

03

Custom Shelters Tailored to Your Specific Project Needs

Our team of skilled engineers designs and delivers custom shelters tailored to your specific project needs and compliance requirements.

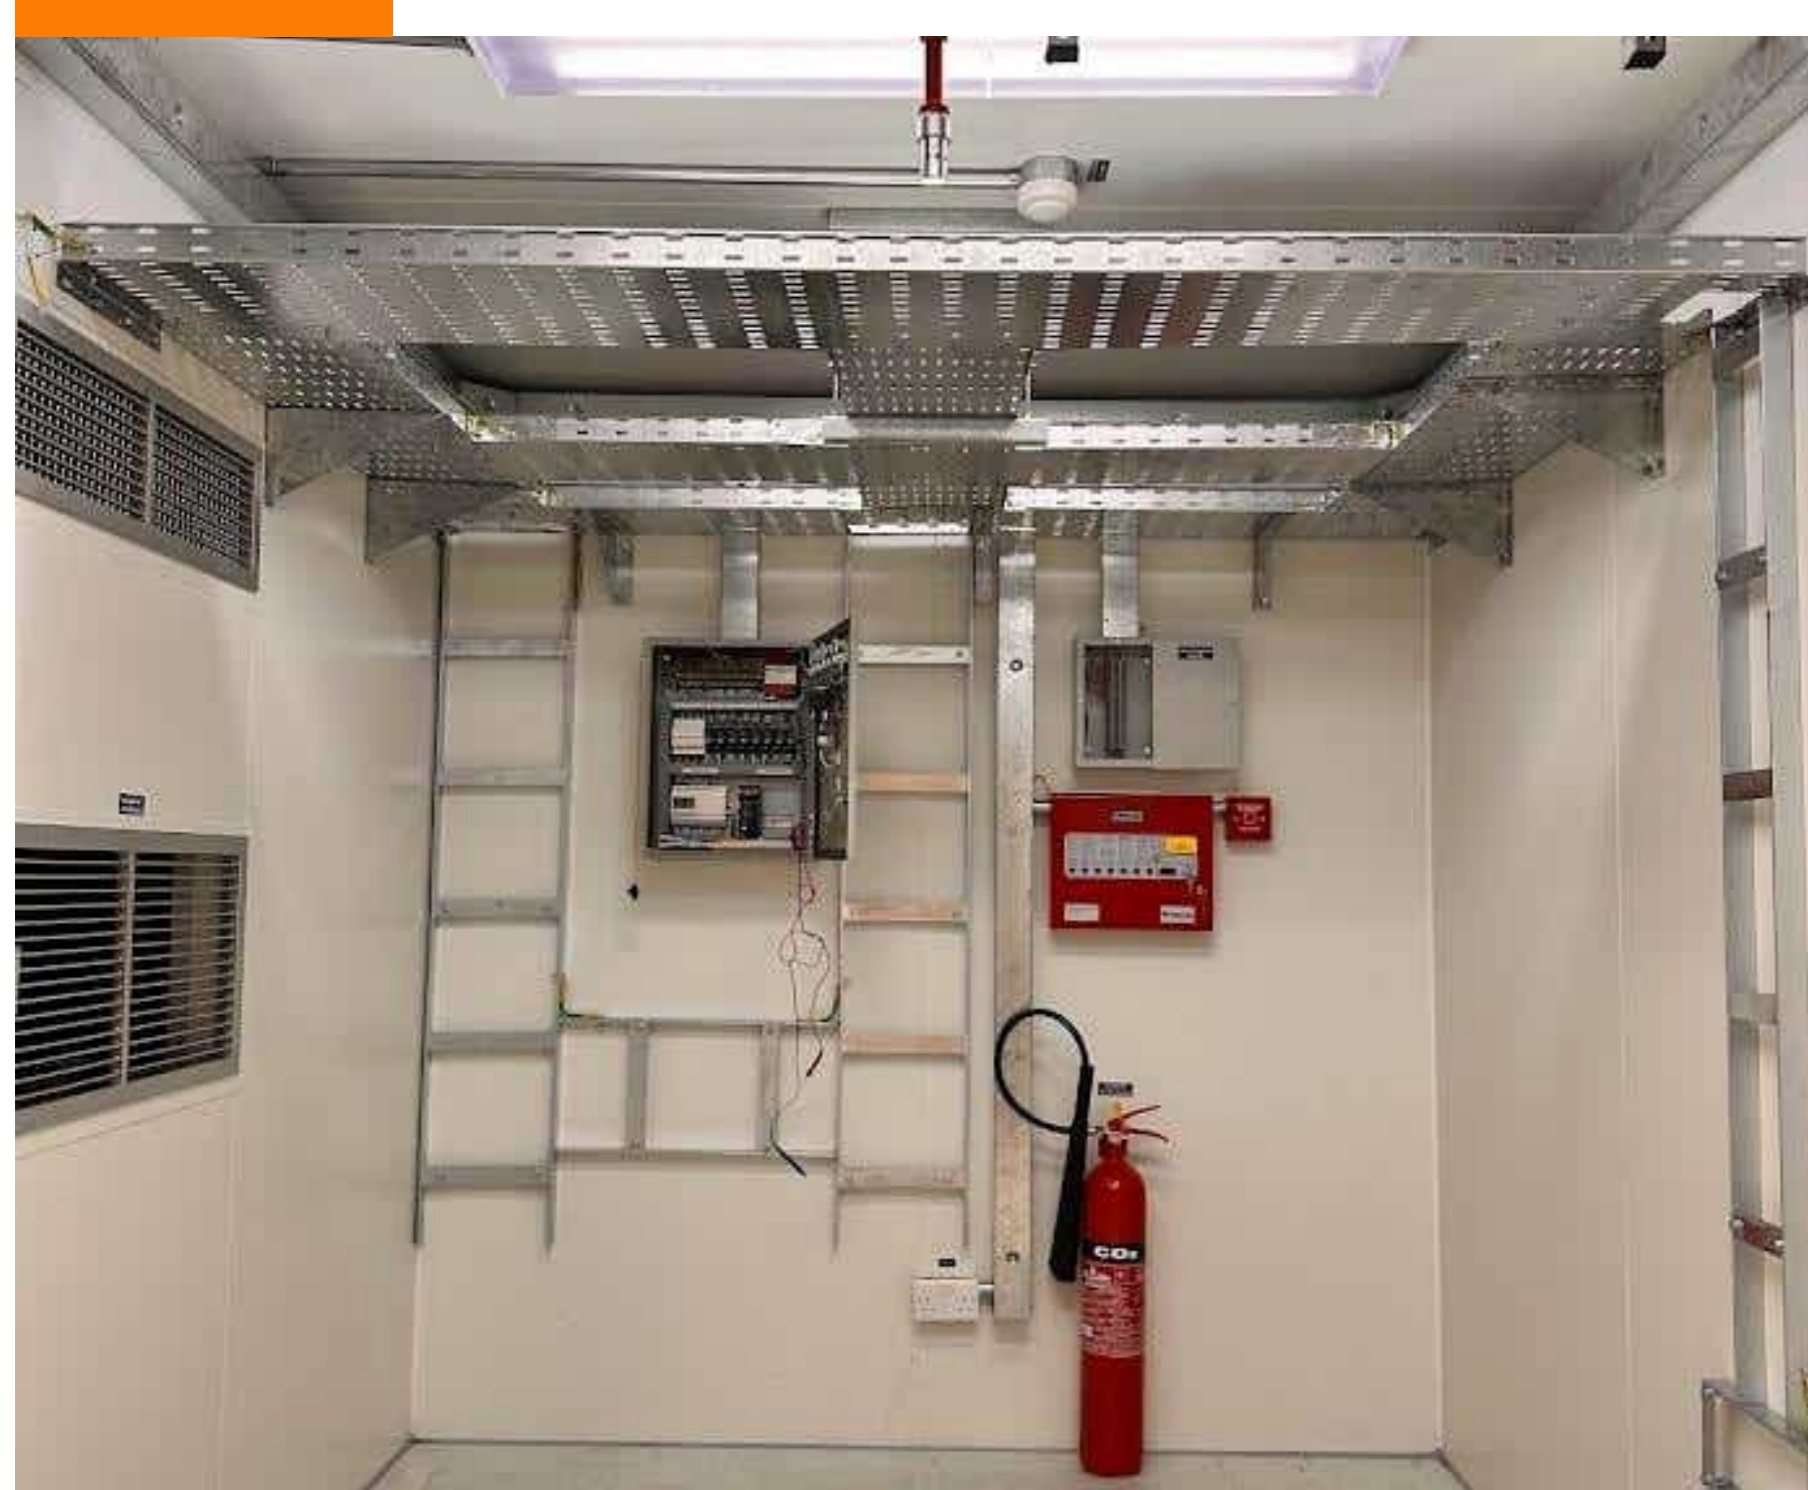

We ensure reliable and secure communication infrastructure through our comprehensive solutions, allowing you to focus on your core operations.

Investing in Reliable Communication Infrastructure Starts Here

Offers peace of mind for your remote communication needs.

We are a One-Stop Shop for Customized Shelters, featuring:

- Durable & Secure Shelters** Designed and built to withstand harsh environments.
- Temperature Control** Automated systems maintain optimal conditions for equipment.
- Real-Time Fault Alerts** Early detection of potential issues for proactive maintenance.
- Integrated Fire Safety** Automated systems for the safety of your equipment & personnel.
- Turnkey Solutions** From design to installation, we handle it all.

Where Communication Never Gets Lost.
Building Reliable Communication Infrastructure.

Kenz MEPF & HVAC

Kenz MEPF provides comprehensive and integrated solutions for your building's Mechanical, Electrical, Plumbing, and Fire Protection needs. Our skilled engineers design, install, and maintain efficient and reliable systems, ensuring a comfortable and safe environment for occupants.

Ensuring a Comfortable & Safe Environment for Occupants

04

We Leverage Cutting-Edge Technology and Industry Best Practices

We leverage cutting-edge technology and industry best practices to deliver customized MEPF solutions that optimize energy efficiency and minimize operational costs.

From concept to completion, our experienced team ensures seamless project execution, exceeding your expectations.

Building the Future, One System at a Time

Kenz MEPF offers a complete range of services, including:

Mechanical Systems

HVAC design and installation for optimal comfort and energy efficiency.

Electrical Systems

Reliable power distribution and lighting solutions.

Plumbing Systems

Efficient and sanitary plumbing design and installation.

Fire Protection Systems

Integrated fire suppression and detection systems for peace of mind.

Building Automation

Smart building technologies for enhanced control and efficiency.

Project Management

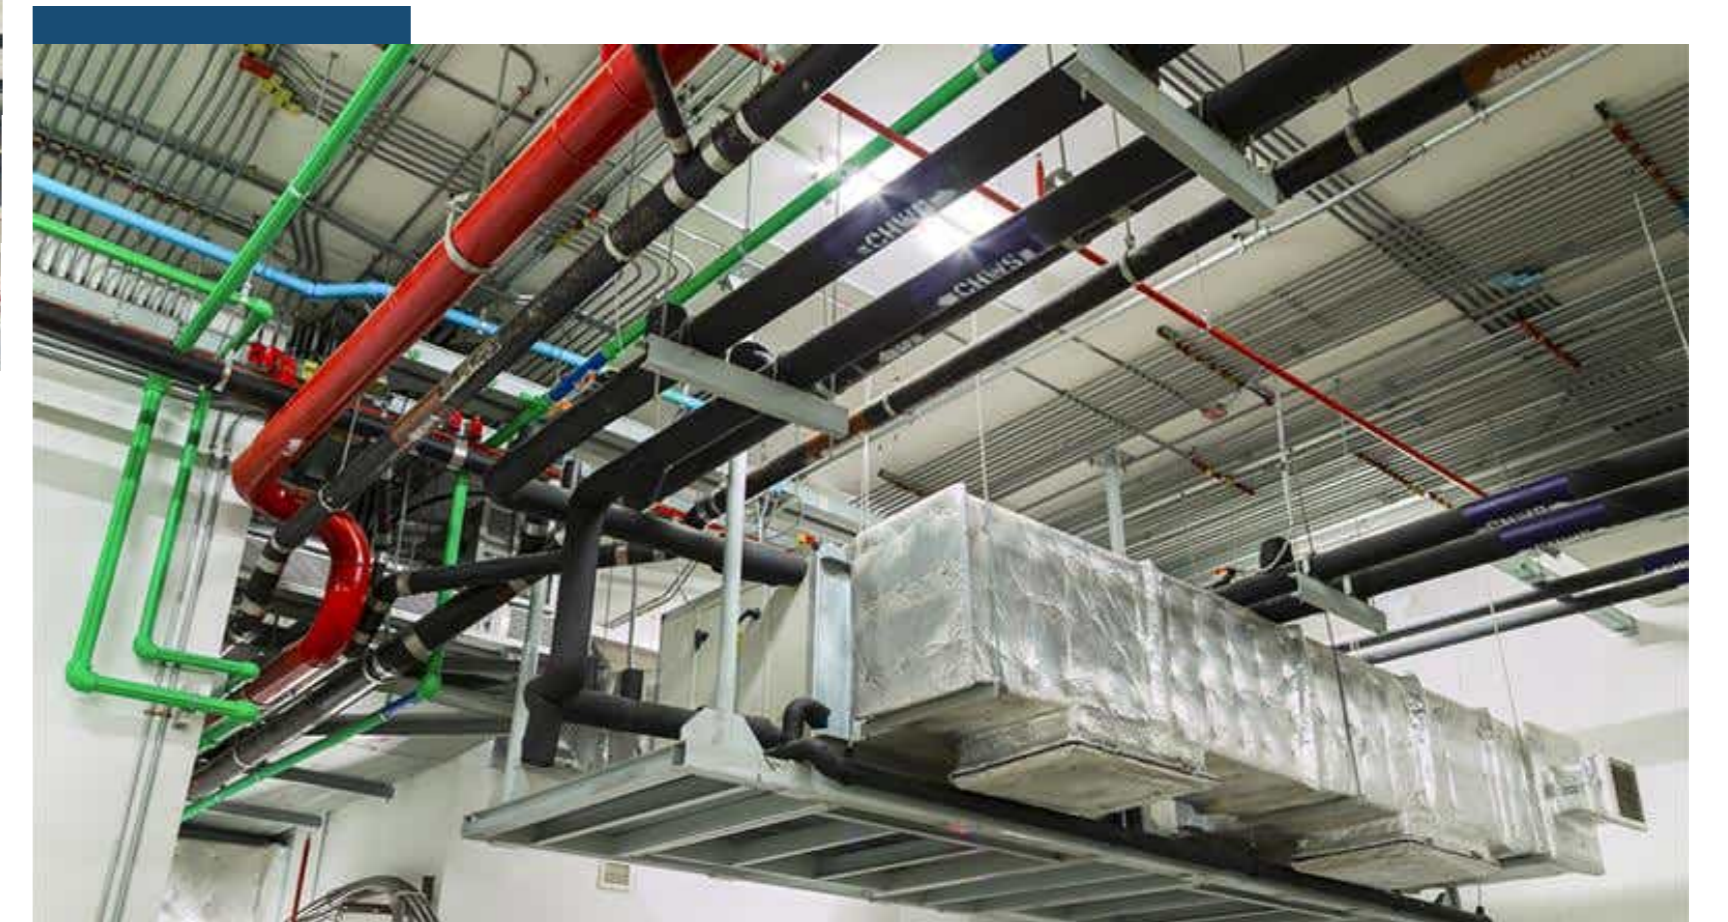

Seamless coordination and execution from planning to completion.

Building the Future with Smart MEPF Solutions.

A team of Experts: Our HVAC Professionals bring years of experience and specialized training to every project

- Installed and serviced HVAC units, Rooftop units, chillers, and including split systems.
- Diagnosed system malfunctions and performed necessary repairs to ensure optimal performance.
- Conducted preventive maintenance and implemented energy-saving solutions.
- Worked with clients to design and optimize HVAC solutions tailored to their needs.
- Managed HVAC projects from planning to execution, ensuring quality and efficiency.
- Conducted air quality tests and recommended ventilation improvements.

"Creating Optimal Living and Working Conditions with Advanced HVAC Technology".

Kenz Modular & Prefab

Kenz Contracting delivers innovative prefabricated and modular solutions for diverse needs. From portable offices and residences to hotels, resorts, and data centers, we utilize ISO containers and cutting-edge technology to create high-quality, cost-effective, and sustainable structures.

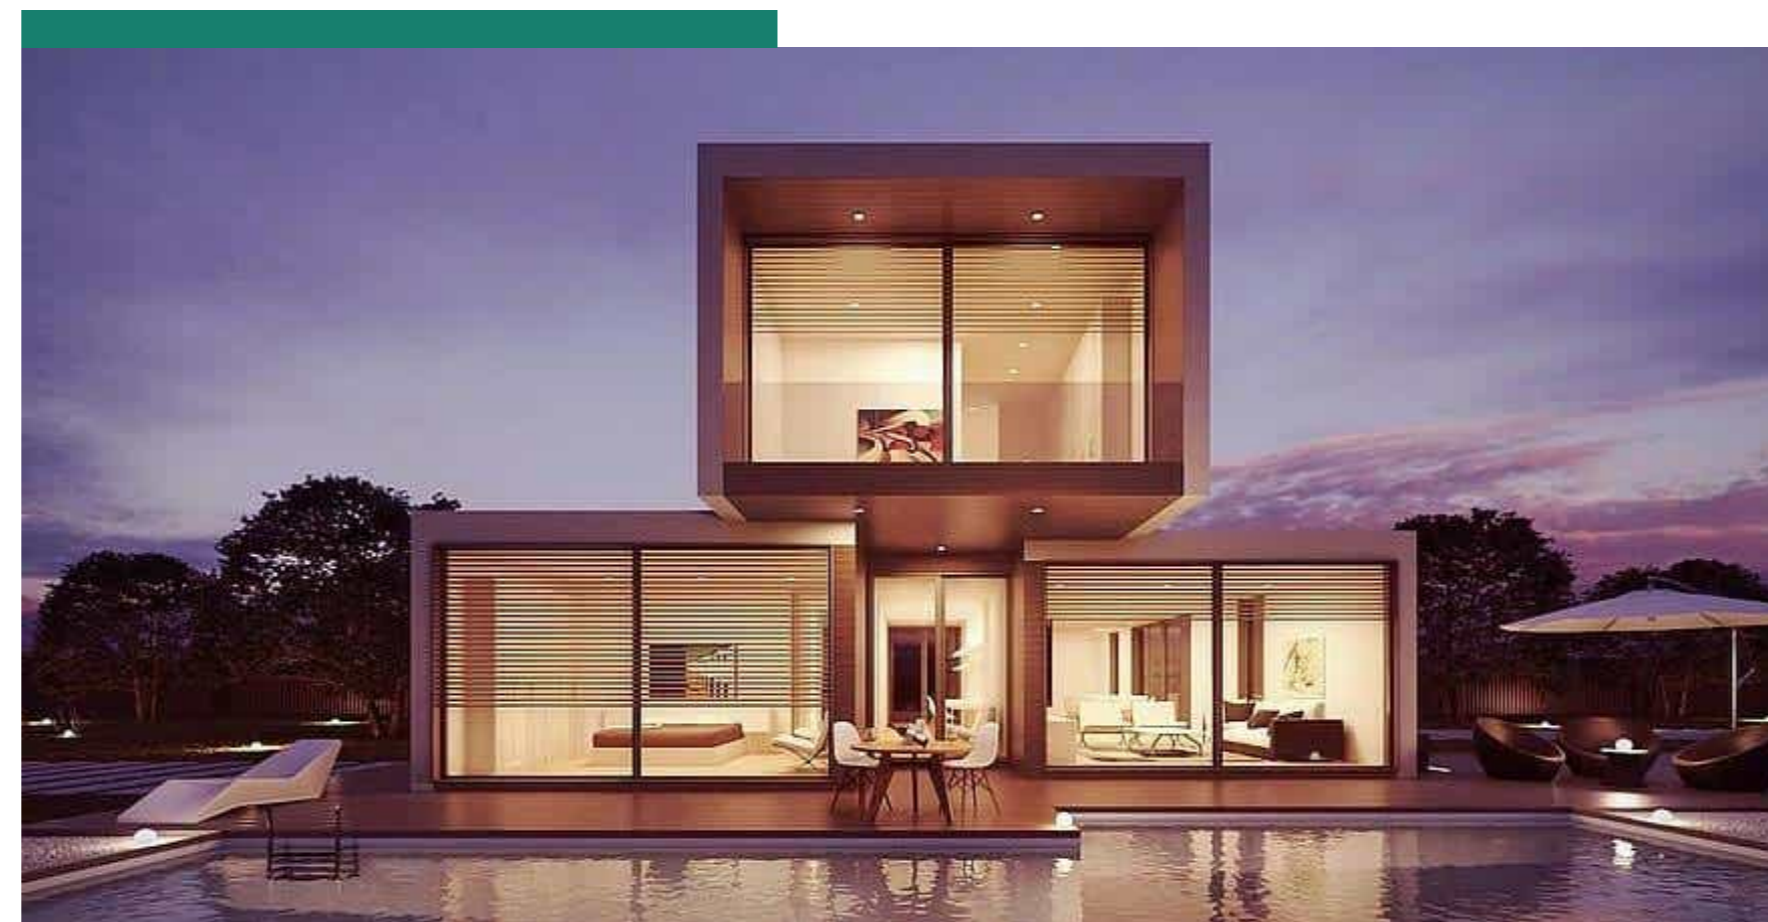

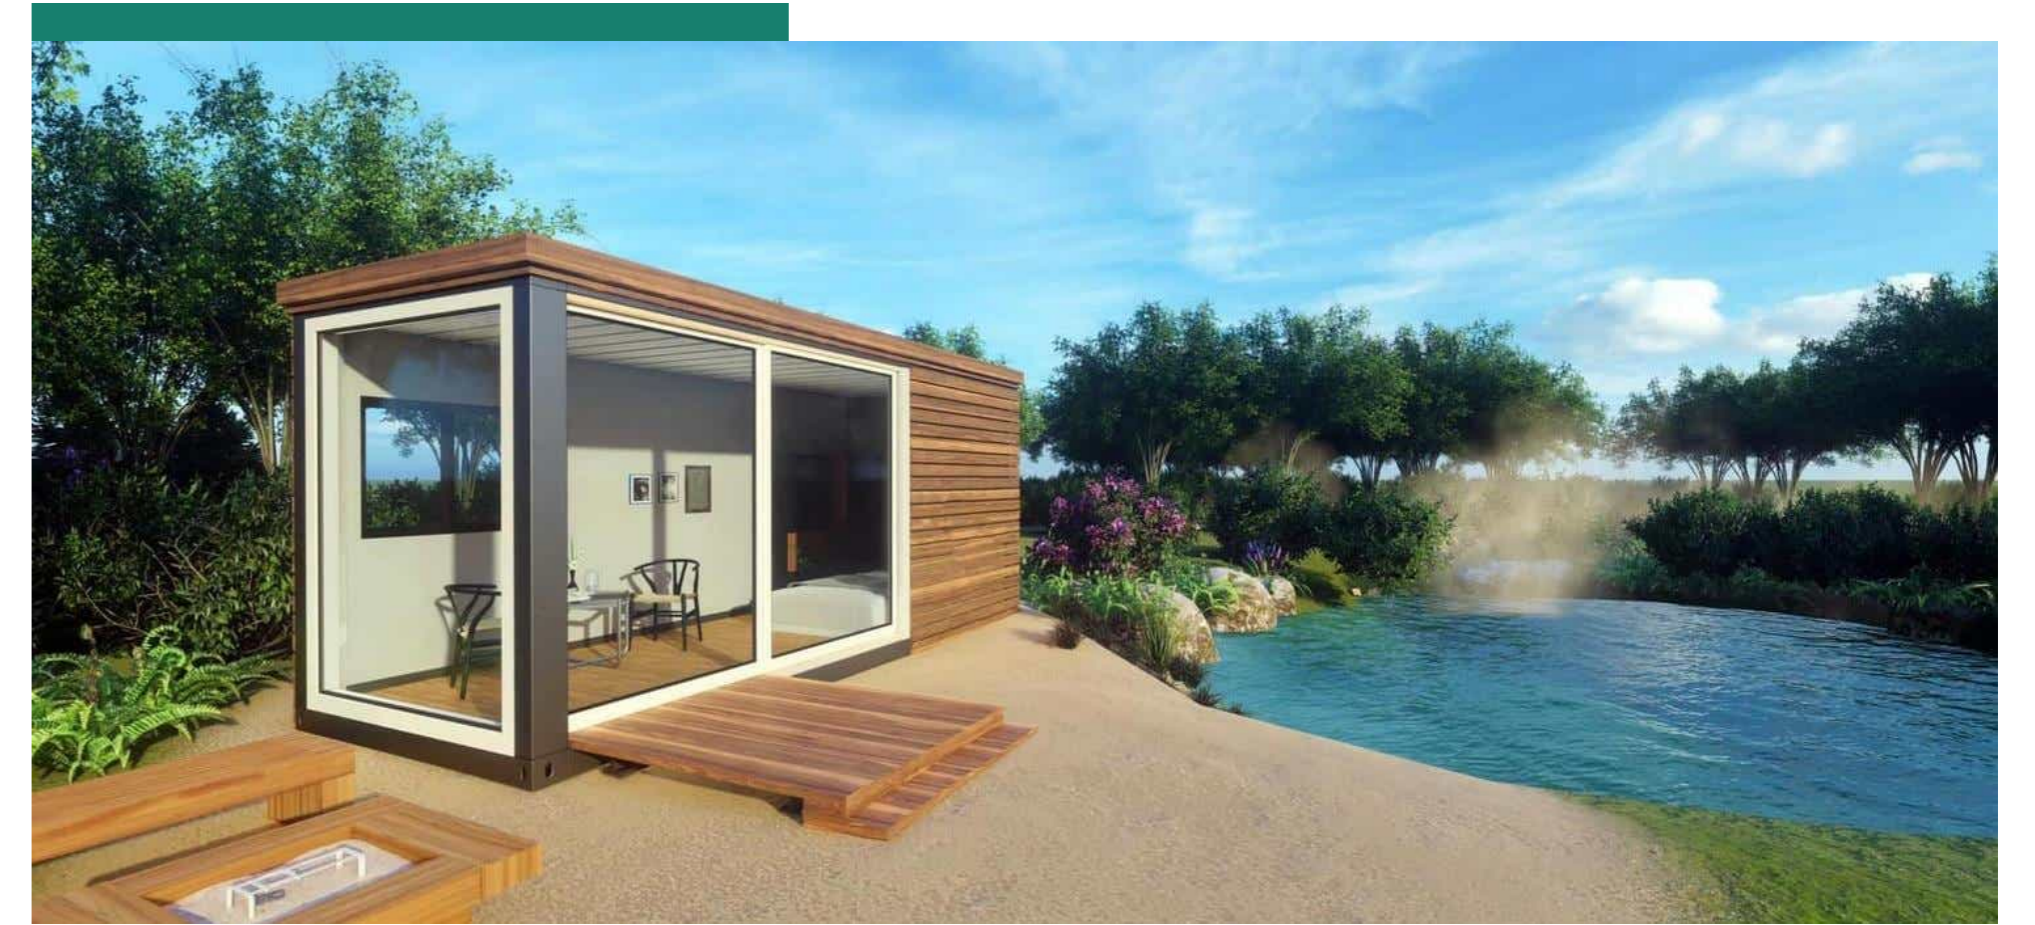

05

“

We Prioritize Quality, Durability,
and Speed of Construction

Our team of experts designs and manufactures prefabricated / modular units that meet your specific requirements and budget.

We prioritize quality, durability, and speed of construction, allowing you to enjoy the benefits of your project sooner.

Build Faster, Smarter, and More Sustainable

Kenz Contracting's prefabricated and modular solutions offer a range of advantages:

Faster Construction

Reduced on-site construction time minimizes disruption and allows for quicker project completion.

Cost-Effective

Prefabrication offers a budget-friendly alternative to traditional construction methods.

Sustainable Solutions

We prioritize environmentally friendly materials and practices.

Scalability and Flexibility

Modular units can be easily adapted or expanded to meet changing needs.

Versatility

Ideal for a wide range of applications, including portable offices, residences, hotels, resorts, and data centers.

ISO Container Expertise

Our team leverages expertise in converting ISO containers for unique and sustainable structures.

Building Smarter Solutions, Faster. The Future of Sustainable Construction is Here.

Kenz Kitchen

We design and build high-performance commercial and industrial kitchens tailored to your specific needs. We deliver complete solutions, from layout and equipment selection to installation and maintenance.

“

Commercial & Industrial
Kitchens Tailored for You

06

“

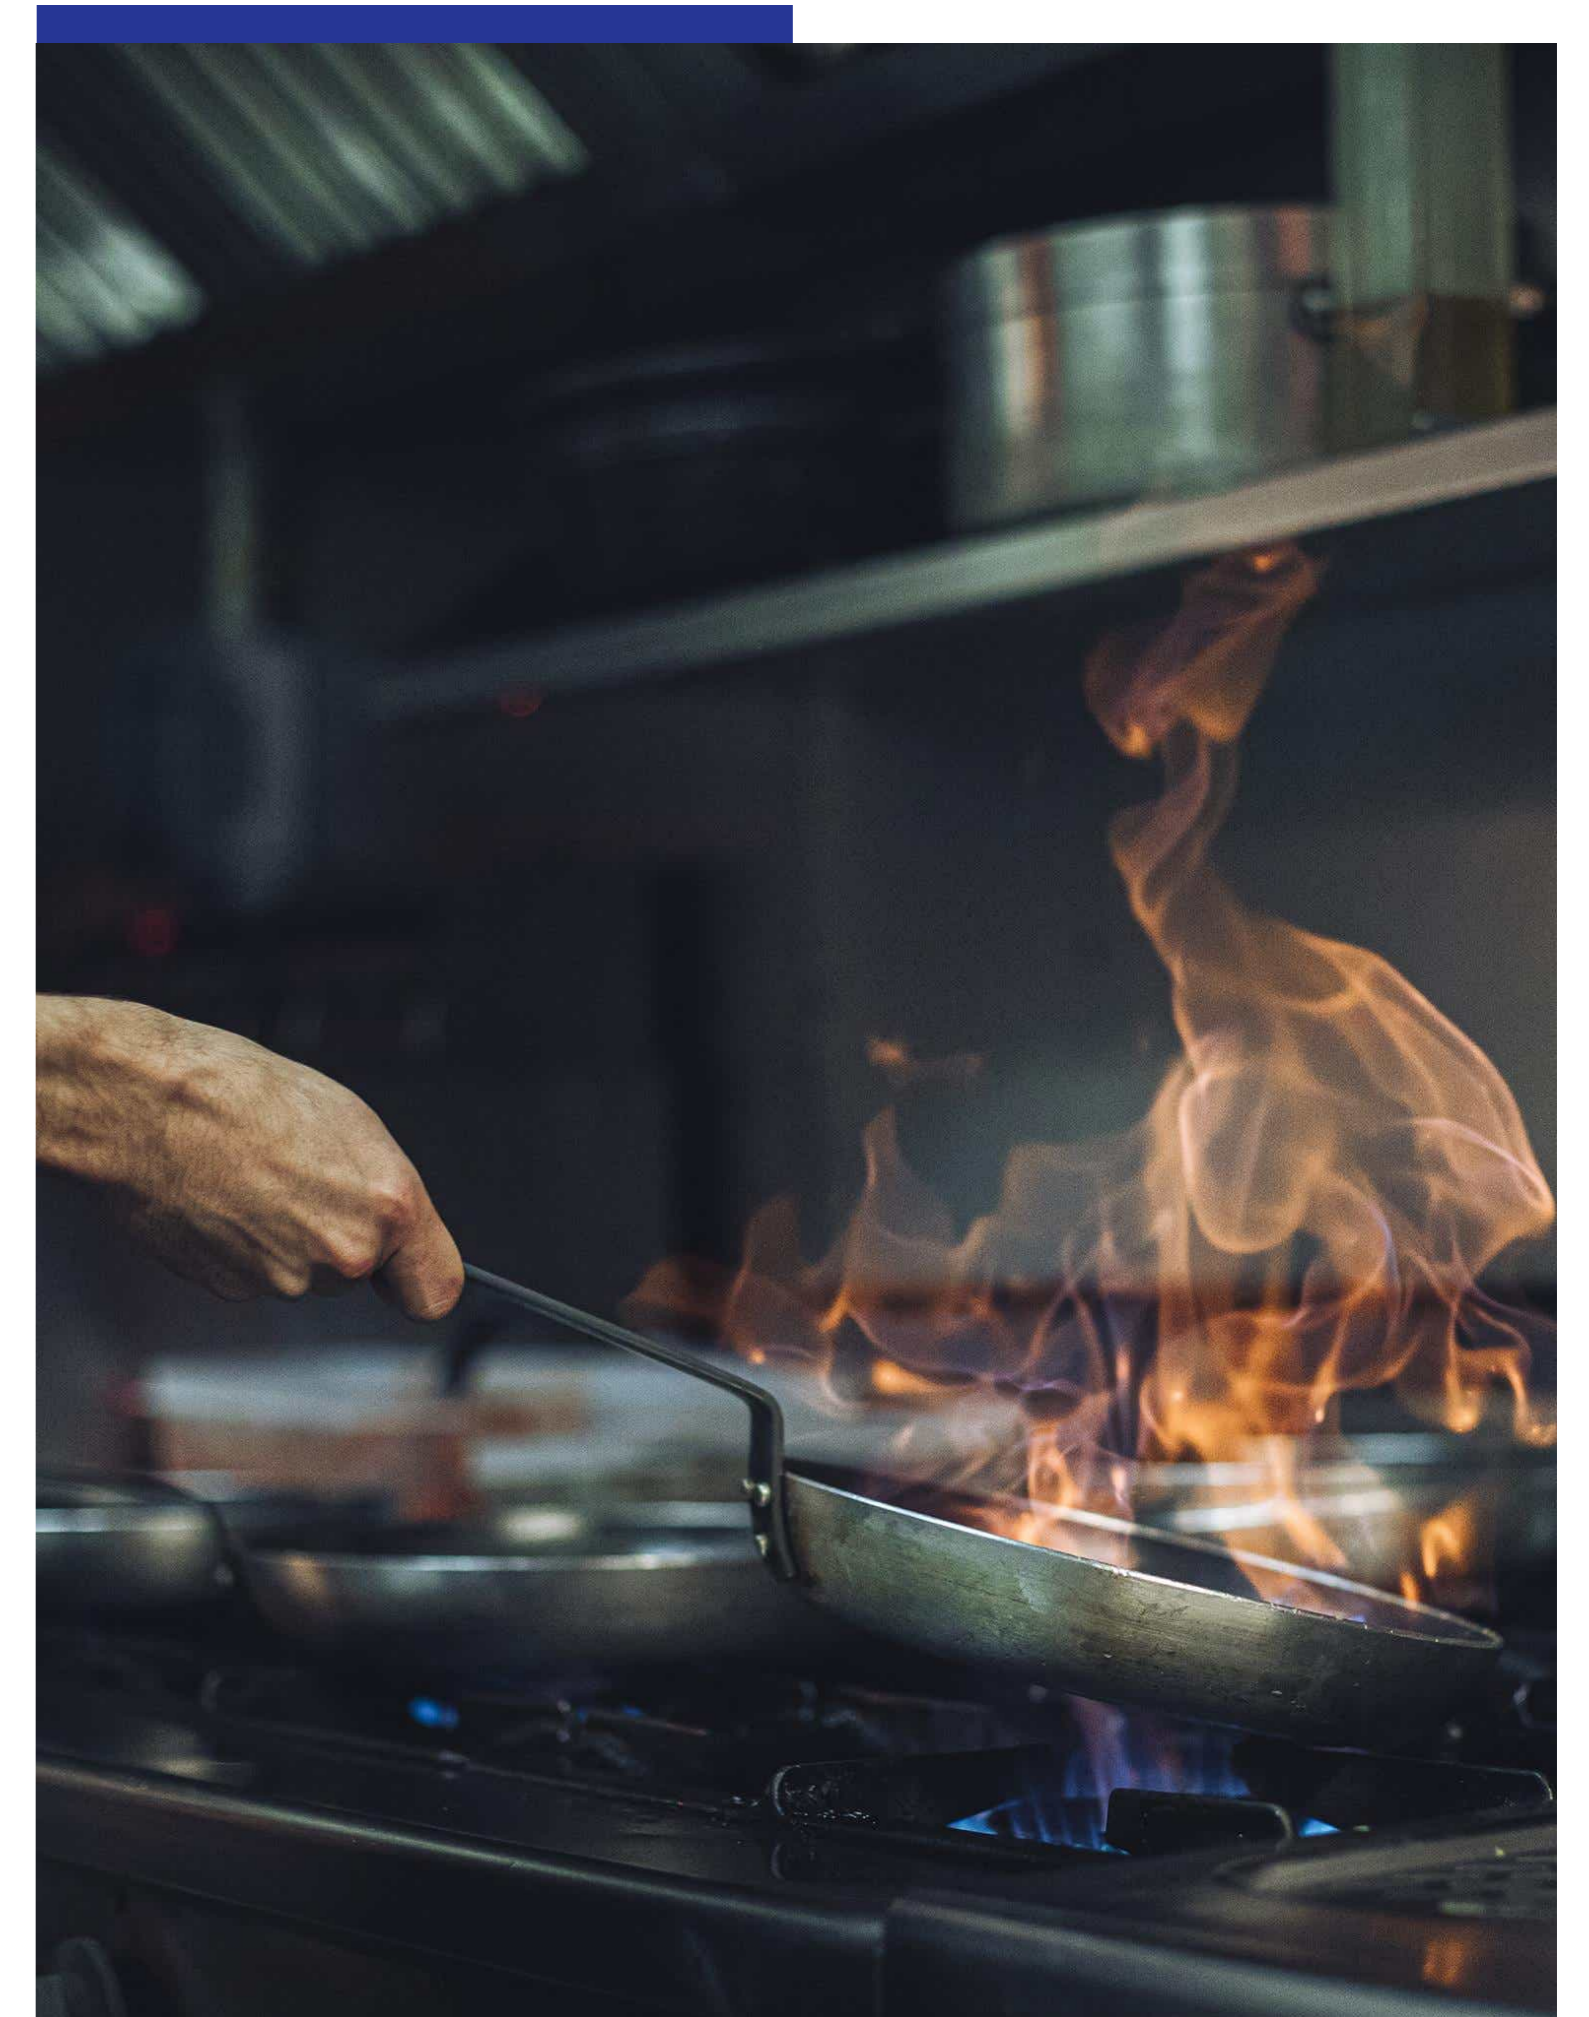

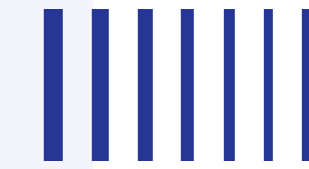

We Prioritize Quality, Durability,
and Speed of Construction

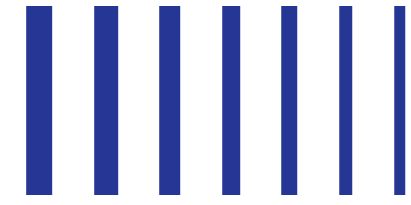

Our team of experienced designers and engineers optimizes workflow and efficiency in your kitchen.

We leverage high-quality equipment and materials to ensure durability and meet safety regulations.

Kenz Contracting is your one-stop shop for all your commercial and industrial kitchen needs, offering complete peace of mind.

Elevate Your Culinary Operations

Kenz Contracting helps businesses create exceptional kitchens with:

Customized Design & Planning

We work closely with you to create a kitchen that optimizes workflow and maximizes space.

Comprehensive Maintenance Services

We offer ongoing maintenance plans to keep your kitchen running smoothly.

Equipment Selection & Procurement

We source high-quality equipment to meet your specific needs and budget.

Safety & Sanitation Compliance

Our solutions prioritize safety regulations and maintain the highest hygiene standards.

Expert Installation

Our experienced technicians ensure proper installation and functionality of all equipment.

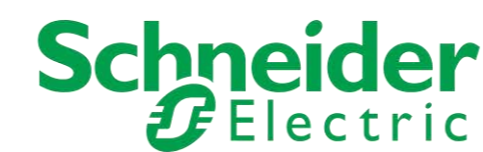

Engineered for Efficiency, Built for Success.

Your Partner in Building High-Performance Kitchens.

Our Vision and Mission

Vision

To transform the built environment with reliable, sustainable, and cutting-edge engineering solutions that set new industry standards.

Mission

Deliver innovative HVAC and refrigeration systems that exceed client expectations through excellence and ethical practices.

Integrity

Ethical practices in every interaction

Diversity

Inclusive workforce and solutions

Innovation

Cutting-edge technology adoption

Excellence

Superior quality in all deliverables

Reliability

Consistent performance and trust

Sector Expertise: HVAC-R Solutions

Our comprehensive HVAC-R expertise encompasses the complete project lifecycle, from initial design and analysis through to installation, commissioning, and ongoing maintenance. We pride ourselves on our proficiency in energy efficiency standards and regulatory compliance, ensuring every system we deliver meets the highest performance benchmarks.

System Design & Analysis

Tailored HVAC solutions with energy efficiency focus

VRF/DX Systems

Supply, installation, and comprehensive servicing

Chiller Maintenance

Preventive and corrective care for air-cooled and water-cooled systems

Compressor Overhauling

Expert servicing of Bitzer, Carrier, Trane, and other leading brands

Refrigeration Technologies

- Advanced cold storage and freezer room solutions
- Food, pharmaceutical, and industrial applications
- Environmentally friendly refrigerants (R22, R134A, R404A, Ammonia with Glycol, CO2)
- Customize condensing units with premium compressors

Additional Services

- Fresh Air Handling Units and FCU maintenance
- Ducting, insulation, and refurbishment projects
- Refrigerant leak testing and gas charging
- Annual Maintenance Contracts (AMC)

Project Portfolio Highlights

Cold Room Projects

Successful delivery of commercial refrigeration and industrial storage solutions across multiple sectors

HVAC Installations

Diverse sector experience including manufacturing, Industrial, healthcare, and food processing facilities

Maintenance Contracts

Ongoing service agreements ensuring optimal system performance and extended longevity

 **Featured Achievement:** Our portfolio includes large-scale cold storage facilities and complex MEPF (Mechanical, Electrical, Plumbing, and Firefighting) projects that demonstrate our capability to handle the most challenging engineering requirements.

Each project in our portfolio represents our commitment to delivering exceptional results that exceed client expectations. From intricate pharmaceutical cold storage requirements to large-scale industrial HVAC systems, we bring the same level of expertise and attention to detail to every engagement.

Strategic Location and Market Reach

Strategic Headquarters

Exit 18, Kharj Road, Riyadh - positioned for optimal access to major commercial and industrial areas

National Coverage

Serving clients across Saudi Arabia with established capacity for regional expansion

Strong Networks

Robust supplier and partner relationships enabling access to premium equipment and materials

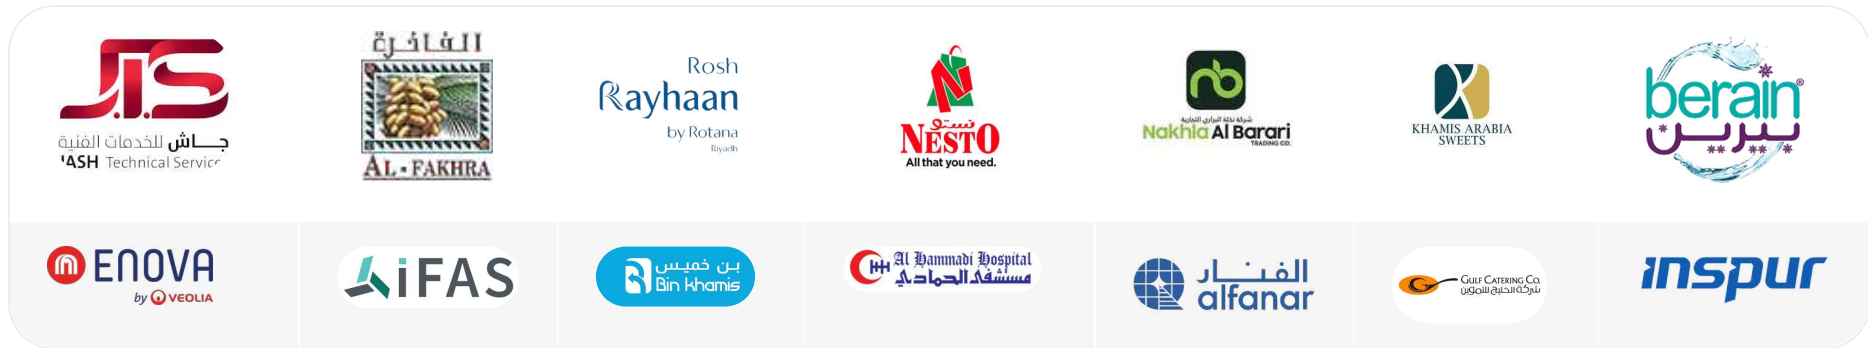

Our headquarters location provides exceptional connectivity to Saudi Arabia's major industrial and commercial centres, enabling us to respond rapidly to client needs whilst maintaining cost-effective operations. This strategic positioning, combined with our extensive network of suppliers and partners, ensures we can consistently deliver premium equipment and materials for every project.

Our established presence in Riyadh serves as the foundation for our growing influence across the Kingdom, with proven capabilities to expand our reach to meet increasing regional demand for high-quality HVAC and refrigeration solutions.
